

Technology

**Brian
Yavorsky**

Brian Yavorsky

has been named vice president of technology at Cody Consulting, Tampa.

Yavorsky

will be responsible for Cody's use of technology internally, for the technology used for software products including Cody's proprietary software CodySoft®, and for advising Cody's corporate senior management on all technology issues. Before joining Cody Consulting, Yavorsky served as the vice president of client strategies for Standard Register, where he was dedicated to driving product development program management, and innovation of current and emerging technology solutions.
